ABOUT THE SWISS GOVERNMENT SCHOLARSHIPS

Through the Federal Commission for Scholarships for Foreign Students (FCS), the Swiss Government grants foreign researchers university scholarships (Swiss universities, Federal Institutes of Technology and Universities of applied sciences). These scholarships are offered on the basis of reciprocity (fixed number of scholarships for each country) or within the framework of a pool (scholarships without fixed distribution by country). They are intended for young researchers who have graduated from university (postgraduates). These scholarships will enable applicants to undertake research work in the fields in which the Swiss universities are particularly active.

Every country has a specific offer of scholarships. Please go to the FCS webpage in order to see which type of scholarship is offered to your country of origin.

http://www.sbf.admin.ch/htm/themen/bildung/stipendien/eskas_en.html

The applications have to be submitted for a preliminary selection to the national institution in charge and/or to the Swiss diplomatic representation in the student's country of origin. The Swiss diplomatic representation will then forward the **pre-selected applications** to the FCS for final selection.

In some cases the universities do not waive the PhD fees. Should the Universities and/or Universities of Applied Sciences and fine arts schools not waive the fees, it is up to the grantee to pay for the fees.

Grantees from European and East / Central European countries pay for their own travel expenses to Switzerland as well as back to their country of origin.

Grantees from non-European countries pay for their own travel expenses to Switzerland, but the FCS pays an allowance (lump sum) for the return ticket at the end of the scholarship.

However, the return allowance will not be paid if scholarship holders extend their stay in Switzerland beyond six months after completion of their studies, if they take up employment pending the continuation of their studies or if they move to a third country.
